

Keeping you **safe,** **informed,** and **on track.**

The world moves fast, and Intelligent Transportation Systems keep the modern world moving. ITS improve safety, efficiency, mobility and productivity to address issues, and enhance the movement of people and products. All these systems require power and Solis Energy has solutions to make sure ITS systems stay up and running.

- Auto Navigation
- Traffic Control
- Container Management
- Variable Message Signs
- Surveillance Cameras
- Automated License Plate Recognition

KEEP THE CONNECTION

Solis Energy's outdoor **Uninterruptible Power Supply (UPS)** systems are an ideal solution for your short-term, outdoor emergency battery backup power in the event of a brownout, blackout, power dip or surge.

CUT THE CORD

Solis Energy's **Solar Power Plant (SPP)** delivers immediate, reliable solar-generated electricity to your remote applications - anytime and anywhere. Ideal for use where there is an absence of available commercial power.

BRIDGE THE GAP

Solis Energy's **Continuous Power Bridge (CPB)** provides continuous, uninterrupted power to devices such as surveillance cameras or Wi-Fi radios attached to parking lot or street lights that do not have power during the day.

TAP INTO IT

Solis Energy's **Light Pole Power Tap (LPT)** provides easy access to AC power from a streetlight. It simply installs between the photocell and the light to provide power for many applications, including Wi-Fi radios and surveillance cameras.

POWER WHEN YOU NEED IT.
