

**ADJUSTABLE.  
PROTECTIVE.  
INSULATING.**

MEET SOLIS ENERGY'S  
**BATTERY  
BLANKET.**

**Cold weather? No problem.** Solis Energy's innovative battery blanket is crafted from 5mm thick neoprene and designed to fit battery group sizes 24, 27, 31, 65, 78, and 5S. This adjustable insulating sleeve is engineered to reduce thermal stress and improve battery performance and longevity in cold environments by trapping the heat generated inside a battery during charging and discharging.

## BATTERY BLANKET

### FEATURES

- 5mm Neoprene
- Non-conductive
- Fits Most Truck Batteries
- Helps Maintain a Stable Internal Temperature
- Protects Against Extreme Cold
- Shields Battery From Excessive Engine Heat
- Reduces Conductive Heat Loss

### APPLICATIONS

- Industrial UPS and Battery Backup Systems
- Remote Solar Power Systems
- Diesel Truck Batteries
- Forklift Starter Batteries
- Pickup Trucks
- Recreational Vehicles

**POWER WHEN YOU NEED IT.**
