

SAFER PUBLIC SPACES START WITH RELIABLE VISIBILITY.

SECURITY AND SURVEILLANCE: Park Surveillance & Public Space Monitoring

Parks and public spaces require consistent monitoring to ensure safety, deter unwanted activity, and support emergency response. But many of these environments lack reliable power and infrastructure, creating gaps in visibility when it matters most. Solis Energy enables always-on monitoring in outdoor environments - helping ensure surveillance systems remain operational and effective across parks, trails, and recreational areas..

SOLUTION BENEFITS

- Improved public safety
- Reliable power in outdoor environments
- Reduced blind spots
- Flexible deployments
- Support for emergency systems

POWER WHEN YOU NEED IT.
