Freight and passenger trains are vital to a thriving transportation system. Keeping your travelers and cargo moving safely and efficiently requires many critical systems along the way, making access to reliable power integral to proper operation. From security to passenger Wi-Fi, Solis Energy has solutions to make sure your railway transportation controls and infrastructures stay up and running, no matter what.

- Wayside Signaling
- Positive Train Control
- Grade Crossings
- Communications
- Hot Box Detectors
- Yard Security

Let our power keep your railway systems on the right track.
KEEP THE CONNECTION
Solis Energy’s outdoor **Uninterruptible Power Supply (UPS)** systems are an ideal solution for your short-term, outdoor emergency battery backup power in the event of a brownout, blackout, power dip or surge.

CUT THE CORD
Solis Energy’s **Solar Power Plant (SPP)** delivers immediate, reliable solar-generated electricity to your remote applications - anytime and anywhere. Ideal for use where there is an absence of available commercial power.

BRIDGE THE GAP
Solis Energy’s **Continuous Power Bridge (CPB)** provides continuous, uninterrupted power to devices such as surveillance cameras or Wi-Fi radios attached to parking lot or street lights that do not have power during the day.

TAP INTO IT
Solis Energy’s **Light Pole Power Tap (LPT)** provides easy access to AC power from a streetlight. It simply installs between the photocell and the light to provide power for many applications, including Wi-Fi radios and surveillance cameras.

POWER WHEN YOU NEED IT.
