COMPANY OVERVIEW

Inspired by a science project and thriving as a smart, reputable power solution provider, Solis Energy, Inc. is a manufacturer of outdoor power systems for the industrial automation and control, transportation, telecommunication, security, and government markets. Our products include solar generators, outdoor battery backup systems, and a suite of power management components including PoE injectors, DC to DC converters, and remote monitoring equipment. More than just solar, Solis Energy's field-tested reliability and cost-effective solutions are what our customers depend on for their power needs. When the going gets tough, so do we: Solis Energy products are made to last, and installations can be found on all habitable continents and climates ranging from mild to harsh, ensuring that critical energy is running to your systems even in the most extreme conditions. For over ten years, Solis Energy has committed to developing innovative, reliable products that provide our customers flexible solutions to take control of their outdoor power requirements.

PRODUCT SUITE

SOLAR POWER PLANT (SPP)
Solar-generated energy, anywhere.

OUTDOOR UNINTERRRUPTIBLE POWER SUPPLY (UPS)
Emergency battery backup.

CONTINUOUS POWER BRIDGE (CPB)
Uninterrupted power for products on the street or power poles.

LIGHT POLE POWER TAP (LPT)
Easy access to AC power on a streetlight.

POWER OVER ETHERNET COMPONENTS
Industrial Grade PoE Switches (HPX), Injectors, and Splitters
